Automated Packaging Systems

## Company Overview

### Company History

Stone Container Corporation began producing automated packaging systems in 1964, out of Chicago, Illinois. With the 1998 merger of another corrugated industry leader - Jefferson Smurfit Corporation - Smurfit-Stone quickly established itself as North America's premier packaging company.

Smurfit-Stone specializes in corrugated products, mill products, displays, RFID products - and at our Orlando, Florida location - Automated Packaging Systems.

### Automated Packaging Systems

In 1979, Automated Packaging Systems moved to Orlando, Florida. This division designs and manufactures both standard and custom packaging equipment. This semi or fully automated equipment includes trayformers, case erectors, case packers and case sealers. In addition, we offer complete packaging solutions - such as our VPS and Meta systems.

### Our Team

The Automated Packaging Systems division of Smurfit-Stone has some impressive credentials. On both the Application and the Design sides of the packaging industry, our Mechanical and Electrical Engineers have over 200 years of combined experience. Our Fabrication, Assembly and Production teams are comprised of personnel that can bring even the most complex design to life - without compromising performance or efficiency.

### Our Product

All Smurfit-Stone systems are framed of heavy-duty, welded, tubular steel construction. We use the finest add-on features - including Allen Bradley controls, Easy Touch touch screens, Nordson adhesive systems and Lexan guard doors. Your system is designed and customized to meet your specific needs, to seamlessly fit into your existing flow, and to maximize productivity and output.

Smurfit-Stone Automated Packaging Systems has produced over 2,500 systems to date. The large majority of these are still in use today. We take our customer's needs seriously - and provide the support necessary to make certain that our designs have a long and productive life span.

### Our Future

The future of Automated Packaging Systems is ever-changing, but always bright. Our focus remains on our customers. For us, simply building a machine is not enough.

We provide the complete package - reducing waste, labor and material costs - while maximizing manufacturing efficiency, enhancing retail attraction, and boosting our customer's sales.

In addition, Smurfit-Stone is continually pursuing new and innovative concepts and approaches that may make our employees more highly skilled, our performance more efficient, and our product of even higher quality.
